

Muhammad Omair

Senior Full Stack Engineer · 5+ years

Lahore, Pakistan · omairkhattak2018@gmail.com · github.com/M-Omair-Khattak · LinkedIn

SUMMARY

Full stack engineer. Django, DRF, React, Next.js. I spend most of my time on client products — healthcare, construction, PropTech, e-commerce — and the jobs around them: Celery workers, Playwright scrapers, CI, AWS. I use Cursor daily. I would rather ship something staff actually log into than a demo.

SKILLS

Python, JavaScript, TypeScript, Django, DRF, Flask, FastAPI, Node.js, NestJS, Express, React, Next.js, TanStack, Redux, Tailwind, REST, JWT, PostgreSQL, Redis, MongoDB, Celery, Playwright, Docker, GitHub Actions, GitLab CI, AWS, Stripe, Hyperledger Fabric

EXPERIENCE

Full Stack Engineer · Ubiquify

Oct 2025 — Present · Lahore

- Build client apps end to end — Django/DRF or Nest on the backend, TanStack or Next.js on the frontend.
- **Antis** — attendance and labor costing for construction crews, Excel/PDF exports.
- **Keeley** — Procore field reports, billing/draw tracker, Claude MCP for job financials.
- **United Rehab** — inbound fax OCR, patient intake, insurance extraction, RingCentral.
- **Automotive Strategies** — Playwright jobs that pull Toyota/LEO marketing lists for dealers.
- **Park-and-Tow** — Retell voice dashboard, RingCentral recordings, Omadi listing scrape.
- Also LessonLoop, CNTNDR, Everon CRM, RCS, Mobile Expert, Design Democracy, ABS tender scanner, company site.

Software Engineer · Arbisoft

Aug 2021 — Oct 2025 · Lahore

- Shipped production apps with Django, DRF, React, and Next.js for long-running clients.
- REST APIs and smaller services in Django and Flask — JWT, Postgres, the usual production constraints.
- UI with React, Redux Toolkit, Tailwind, Next.js routing. Had to work on a phone.
- GitHub Actions and GitLab CI so tests and deploys were not a Friday-night ritual.
- pytest and Postman suites. Sat with interns and juniors on PRs.
- Hyperledger Fabric prototype for access control — not the whole job, but I know the YAML.

SELECTED PROJECTS

Fitnesscity — health testing marketplace, 700+ locations. Next.js, Elasticsearch, Stripe. fitnesscity.com

Equiem — commercial building platform. Next.js, DRF, GraphQL.

FT Technologies — industrial sensor site. Next.js, DRF, Cloudflare.

Hippocratic AI — healthcare AI marketing site. Next.js, Strapi.
